

Pygmy has rich, bronze-green upper leaves with a waxy, glossy sheen. The underside is coloured purple. Pygmy is vigorous growing, and branches well to fill any container with minimal plants when pinched. Dainty white flowers appear sporadically in spring and autumn. Attractive as a stand alone or in a mixed container.

Flower Type: single
 Flower Time: mid
 Leaf Zone: light/medium/dark bronze
 Heat Tolerance: good
 Vigour: very vigorous
 Habit: trailing

Spathiphyllum

Foliage & Form

SPATHIPHYLLUM

This quality Spathiphyllum is a biological air-purifier. As NASA research proved, it helps to provide clean air in your house or office. Spathiphyllum filters out cigarette smoke, printers, photocopiers, exhaust fumes etc and replaces these hazardous substances with pure oxygen. Who wouldn't prefer to work surrounded by greenery?

Available in 45mm plugs in 50 cell trays.
