

**O**ur Callie™ Calibrachoa features a well-branched plant habit and is versatile enough for 100mm pots, hanging baskets and everything in between! Callie™ grows 15 to 25cm tall, trails to 50cm and fills out a basket like you can't believe! It also works well in beds and containers. Growers will like the fact that Callie™ Calibrachoa colours are uniformly matched in timing and habit.

Flower Type: single  
 Flower Time: mid season  
 Leaf Zone: green  
 Heat Tolerance: moderate 20-25°C
