

**G**reen Orange™ makes an excellent Florist pot line, or a trendy, decorative indoor house plant. The glossy green leaf with bright orange veined stems presents well in an attractive orange or black ceramic pot. Minimal light requirements for growth. Its strong roots develop bulbs which fill with water and preserve minerals to allow survival during dry periods.

Height in a Pot: 35cm, best suited for pots

Leaf Zone: glossy green / orange stem

Light Exposure: well lit, shady position

**Scheduling**

Rooted to 10cm: 12 wks; rec'd 1 plant per pot

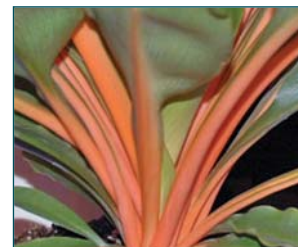

Rooted to 15cm: 16 wks; rec'd 1 plant per pot
