

H hibiscus Klahanie

HIBISCUS

Klahanie hibiscus have amazing long lasting large blooms in vibrant colours. The series has a well branched plant habit that performs well as an indoor house plant or it can be used outdoors in tropical areas. Klahanie hibiscus are very sensitive to growth regulators. PRG's should only be applied once final height is achieved. All varieties make a nice 150mm finished pot. The smaller leaved varieties can also be used for 100mm pot production.

Double Flowers

Huge flowers 12.5cm across and as large as 18cm that last up to 5 days.
